

SERGIO MACIAS LLUCH

Full Stack Developer

Valencia, España

(+34) 658201640 / sergiomaciaslluch@gmail.com

[LinkedIn](#)

Professional profile

Full Stack Developer with 7 years of experience building web applications and SaaS products using React, Next.js, TypeScript, [Node.js](#) and NestJs. Experienced in end-to-end development, REST API integration, product-oriented feature design, and working within Agile/Scrum environments. Background in financial management, providing business vision, analytical thinking, and the ability to prioritize solutions with a real impact on the product and the user.

Professional experience

Full Stack Developer

iNuba — Valencia, Spain (Remote)

Jun 2024 – Abr 2026

- Developed frontend and backend features for a healthcare management SaaS platform.
- Implemented reusable interfaces using React, Next.js, and TypeScript.
- Integrated REST APIs and consumed backend services with Express and Nest.
- Optimized performance and maintained web applications in production.
- Participated in sprint planning, technical refinement, and code reviews in an Agile/Scrum environment.
- Collaborated with product, UX/UI design, and backend teams to deliver new functionalities.

Freelance Full Stack Developer

Valencia, Spain

Mar 2019 – Present

- Developed full stack web applications using React, Node.js, and SQL/NoSQL databases.
- Designed and implemented REST APIs and backend architecture.
- Developed and deployed applications in Cloud and Linux environments.
- Translated business requirements into functional technical solutions.
- Optimized performance, maintenance, and evolution of web applications.
- Managed the full development lifecycle: analysis, implementation, testing, and deployment.

Education

- 02/2022– 06/2022 **Backend Web Development and DevOps Bootcamp (420 hours)**
Factoría F5.
- Cloud Foundations: Linux operating system, scripting, automation, and programming languages focused on Python.
 - Networking Fundamentals: protocols and security best practices (Cloud focus).
 - Security Fundamentals: authentication, authorization, the shared responsibility model, and firewalls.
 - AWS Core Services: Computing, storage, and networking. Including EC2, S3, IAM, VPC, Lambda, CloudFormation, RDS, and Route 53.
- 09/2022– 05/2023 **The Bridge / EDEM Escuela de Empresarios**
- Frontend development with React and JavaScript/TypeScript.
 - Backend development with Node.js and REST APIs
 - SQL and NoSQL databases.
 - Agile methodologies and collaborative work with Git/GitHub.

Key Projects

- 30/04/2026 HealthTech SaaS Platform — iNuba Clinic**
- Development of new features for the healthcare management platform.
 - Implementation of reusable frontend components using React and Next.js.
 - Integration with APIs ([Express.js](#) and NestJs) and performance optimization in a production environment.
- Previous Freelance Web Applications**
- End-to-end development of web applications for clients and personal projects: physiotherapy clinic management, real estate management, and software integration.
 - Frontend/backend architecture design and data modeling.
 - Deployment and maintenance in cloud environments.
